Acta Zoologica is an International Journal for Zoology which publishes original reports of all branches of animal structure research: functional cytology, histology and gross morphology as well as relevant techniques. Articles of purely local interest or of a descriptive or systematic character will, however, not generally be considered. Authors of papers with mainly phylogenetic contents are advised to submit their contributions to the cooperating journal *Zoologica Scripta*. From Vol. 62, 1981, the Journal *Zoon* has merged with *Acta Zoologica*.
